

7 Smart ways to increase Just-in-Time learning with Skill Pill

1.

Encourage the use of apps

- Send links to employees' phones/email to allow them to download the app with a simple click
- Customise your app to suit your brand

2.

1+2=3

Make it simple

- Avoid complex passwords
- Try using QR codes (which work online and offline) to allow mobile users to collect the apps instantly

3.

Social Learning

- Create specific baskets of content (e.g. Becoming a New Leader).
- Enable colleagues to flag up that content using playing cards

4.

Custom Videos

- Produce a short custom video to introduce the service

5.

Share

- Encourage users to utilise the "sharing functions" of the videos they like in order to increase exposure

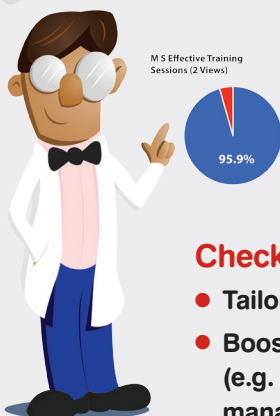

6.

Pill of the week

- Send out a Pill of the Week on a regular day/ time to highlight content

7.

M S Effective Training Sessions (2 Views)

Check your stats

- Tailor material based on popularity
- Boost visibility of the most relevant content (e.g. Conducting Performance Reviews for when managers are giving the yearly appraisals)
